Pandemic Response Emergency Preparedness Kit (P. R. E. P. Kit[™])

Be Aware. Be Prepared.

Pandemic Response Emergency Preparedness Kit (P. R. E. P. Kit™)

What is the P.R.E.P. Kit™?

Strategic Solutions Inc., has developed the only patented *Pandemic Response Emergency Preparedness Kit* (P.R.E.P. Kit™) for use in a healthcare facility, mobile hospital or second level triage facility. The P.R.E.P. Kit™ is a staged response plan that meets the essential internal and external communication requirements prior to or during an influenza, H5N1 Bird Flu Pandemic outbreak. Accurate and timely communication planning is the first step in establishing an effective overall emergency preparedness plan. The P.R.E.P. Kit™ meets JCAHO Emergency Preparedness Planning requirements from Mitigation to Recovery. Information and guidelines are courtesy of WHO, HHS, CDC and the US Government Implementation Plan for Pandemic Preparedness.

How do you use the P.R.E.P. Kit™?

The P.R.E.P. Kit™ is in an easily identified, self-contained and rugged polyethylene container with all necessary components to be used by healthcare personnel to provide treatment strategies, communication planning, healthcare and public protection information and contamination control guidelines for implementation into your facility. We are committed to providing the tools necessary with the P.R.E.P. Kit™ to manage consistent and accurate communication needs at each stage of a pandemic. An instructional DVD and operations manual are included for easy staff training programs to ensure a coordinated response at all levels.

⊕ Strategic Solutions Inc., P.R.E.P. Kit™ products are produced under the strictest quality control guidelines.

⊕ Our research experts individually chose each product for its professional grade quality, ease of use, affordability and overall effectiveness.

⊕ The P.R.E.P. Kit™ can easily be stored and identified for transport to field hospitals and second level triage facilities for immediate access and activation.

⊕ All "high touch" areas are treated with **Anti-Microbial BIOLAM** ⊕

Pandemic Response Emergency Preparedness Kit (P. R. E. P. Kit™)

The following items are included in this kit:
