

STRATEGIC SOLUTIONS, INC

Architectural Signage Safety and Compliance Signage

*Multi-language signage available

Issue: Facilities face many challenges with monitoring changes in signage and communications compliance regulations. By working with our team of Engineers and Specialist, we will assist you in designing a signage solution program to meet your campus travelers needs and keep your facility and staff in compliance with industry regulations. Whether its a basic sign or a complete system, you will find that Strategic Solutions provides high quality products with unmatched industry warranties.

We don't make your needs fit our products; we design products to fit your needs

Application: Strategic Solutions, Inc. works with customers to analyze thier existing or new signage requirements. We provide research based signage solutions to identify key communication areas for visitors and staff traveling through the campus. While defining these areas we incorporate design elements to maintain an aesthtecally pleasing, visitor friendly environment. All internal and external communications programs are specifically designed, to meet each facilities individual needs.

Recommendation: *Strategic Solutions, Inc.* can provide your facility with a professional and affordable communications solution. Effective way finding is critical to the safety and well-being of patients, visitors and staff and represents an important investment for your facility. Proper planning and careful selection of signage communication products, is money well spent.
